

Weather-Resistant Luminaire

IP65

T5

GCR is a range of weather resistant fittings especially suitable for installations in adverse environment where dirt, dust and moisture prevailed. These rugged and handsomely design fittings provide efficient and functional illumination even in harsh, humid and dusty conditions. This is further enhanced by the smooth outer surface of the fitting, which facilitates easy cleaning and inhibits the built-up of dust.

Key Features

- IP 65 rating for application in wet and dusty environment.
- One-piece injection moulded housing and diffuser.
- Sturdy body with gasket and waterproof gland to effectively seal the fitting.
- Knockouts are provided for easy through wiring.
- Durable prismatic diffuser with linear line pattern for uniform diffusion of light.
- Toggles – Injection moulded plastic clips for easy yet effective locking.
- Optional accessories – Stainless Steel clips
- Epoxy powder coated sheet steel gear tray.
- Quick fix bracket included for convenient installation.
