

Radiant

Luminous Prismatic Ceiling Tile

Radiant is a range of high specification luminaires utilising cutting edge T5+ECG technology working in synergy with custom designed tiled prismatic diffusers. Individual tiled prismatic cell is equipped with four sided polished reflectors to enhance light output. They stand out by their visually homogeneous appearance. The end result is a combination of brilliantly luminous ceiling tiles and architecturally compatible & pleasing light fixture.

Louvres Design

- Tool-free installation of tiled prismatic louvers with spring catches holding louvers in place.
- Safety cables securing louvres to housing which remains connected to the safety system even when unhooked.
- Newly designed tiled prismatic diffuser with 4 sided reflector surfaces per prismatic tile to direct light for optimal light diffusion.
- Acrylic lenses with specially engineered optics, which provides widespread light distributions, obscures lamp images and masks dark lamp ends for clean crisp luminaire appearance.
- Aesthetic appearance of luminous rectangular tile enhances the architectural deco of the interior.
- Low profile housing is ideal for applications with limited plenum space.
- High quality diffused lighting from luminous rectangular tiles for well-distributed quality illumination.

Key Features

- Extremely shallow housing (55mm) & thus easy installation.
- Supreme lighting engineering & economical operations with ECG.
- Diffused lighting from tiled prismatic cells for unique signature appearance.
- Seamless one-piece top housing with no butt joints as visible luminaire frame.
- Attractive design, novel appearance, easy to integrate into any office scenery.
- Energy saving, higher light output ratios with reduce energy consumption in comparison to recessed mounted T8 luminaire.

Ordering Guide

LAMP TYPE	
T5 3x14w	ECG
T5 3x14w	ECG
T5 3x28w	ECG
T5 4x28w	ECG
